About the Marina Tree and Garden Club

The Marina Tree and Garden Club is non-profit organization created to encourage interest in gardening and civic beautification with special focus on water wise landscaping, California native plants, and conservation of natural resources.

Members have the opportunity to connect with other gardeners in the community to share knowledge and information about what can grow in Marina's challenging environment.

The Marina Tree and Garden club readily serves this community by providing many interesting events, and opportunities for participants to improve green space in the public and private areas of our city.

The MTGC was founded in February 2006.

Club Events

Quarterly general meetings with guest speakers and presentations on garden related subjects. Speakers have included Joey Dorrell-Canepa of Beach Garden Project, Paul Lord of the Marina Coast Water District and Tim Jensen of the Monterey County Parks District. Past presentations have included subjects such as pest control, tree pruning techniques, and "water wise" landscaping concepts.

Annual Plant Sale and Fund Raiser – Drought tolerant plant cultivation and information disseminated to public. Plant sale proceeds fund civic beautification projects.

Annual Cutting Day – A free community based event in which gardeners exchange cuttings, seeds, plants and information at the Marina Farmers Market in the Spring.

Autumn Seed Exchange – A free community based event in which seeds and information are exchanged at the Marina Farmers Market.

Marina Garden Tour – Unique Marina gardens are open to the public for this biennial event. Ticket sales fund civic beautification projects.

Community Garden Clean-Up Day – General weeding and cleanup of the drought tolerant Community Garden maintained at the Marina Coast Water Management District Well Site.

"Adopt-a-Highway" Tree Planting – Community volunteers gather to plant trees along the CalTrans highway strip of Highway 1 in Marina. Club funds provide trees.

Field Trips – Periodic trips to interesting locations such as wholesale nurseries, historical and themed gardens, for members and guests.

Mission Statement

- Encourage and engage in civic beautification and improvement of roadsides and green space
- Create and promote interest in horticulture, gardening, floral and landscape design
- Aid in protecting California's native plants, wildlife and natural beauty
- Promote and participate in projects and programs which conserve our natural resources
- Improve the streets and public areas of the City of Marina by planting and maintaining trees and gardens
- Cooperate with other organizations, agencies in furthering the interests of gardening and conservation
